

## TECHNICAL SPECIFICATION PVC SOLVENT

### Description of product:

Packaging tape made of PVC-film coated with an adhesive based on natural rubber, high adhesive strength and shear adhesion by silent unwinding.

For all purposes and also printable.

<b>Technical Datas:</b>	
Backing material:	E-PVC-Film
Thickness of backing:	0.035 mm (= 35 micron)
Adhesive type:	natural rubber
Total thickness incl. adhesive:	0.057 mm (= 57 micron)
Elongation at break:	70% +/- 10%
Breaking load lengthways:	14,0 kg / 25 mm
Adhesion to steel:	5.5 N / 25 mm +/- 10 %
Heat resistance (short-term):	80° C
Colours:	white

### Range of application:

For sealing of duty and heavy duty carton boxes.

The stated results apply to average analyses of our production and are not binding. The manufacturing and quality control are carried out by European standard norm CEN / TC 253 ("self adhesive tape") and AFERA. The user should determine whether the product is fit for a particular purpose and is suitable for the user's method of application before use.
